

Bauera Rose Carpet™

Bauera rubioides x sessiliflora

Here's a plant with a real design edge ~ the pattern could be used for a carpet in the house as well as in the garden. Background foliage is mid green and slightly furry, with an overlay of bronze new growth. Dotted across throughout the year are magenta-pink, mini-rose-shaped flowers. With homes expanding and garden space squeezed, this colourful, tough plant should be high on every design list. With a spread of 50cm to a metre and almost prostrate, Rose Carpet™ will adapt to most climates, including semi arid if given an extra drink. It's perfect beside the sea too. For landscapers looking for inspiration, think Rose Carpet™ for the next median strip or roundabout design, long banks and broadscale planting schedules.

Quick Info:

Genus/Species:

Bauera rubioides x sessiliflora

Cultivar Name: Rose Carpet

Habit: Compact dense ground cover

Plant Type: Ground Cover

Height (m): 0-50cm

Width (m): none

Frost Tolerance: Medium

Growth Rate: Medium

Position: Full Sun to Part Shade

Flower Information:

Magenta pink miniature rose-like flowers most of the year

Foliage Information: Arranged in threes either side of stems bronze tips soft texture

Cultivation: Moist well drained clay loam or moist sandy soils neutral to acid pH

Fertiliser: Low P required at around 1.6 %

Climate: Cool temperate to sub tropical; 2nd line coastal

Maintenance: Trim lightly in spring or late summer if required
