

Callistemon Kings Park Special™

Callistemon viminalis

Tall shrub or small tree with slightly weeping branches that bear a mass of bright red bottle brush flowers in spring and summer. Spot flowering may occur in autumn. Excellent specimen for screening and for roadsides or commercial plantings. Flowers attract nectar feeding birds. Prefers a sunny to partly shaded site in moist, well drained soil. Tolerant of dry periods and coastal conditions. May be pruned lightly after flowering to maintain shape.

Quick Info:

Genus/Species:

Callistemon viminalis

Cultivar Name: Kings Park Special

Habit: Small Tree

Plant Type: Small Tree

Height (m): 3-4m

Width (m): 2-3m

Frost Tolerance: medium

Growth Rate: Medium

Position: Full Sun to Part Shade

Flower Information:

Masses of bright red bottle brushes

Foliage Information: Slightly weeping branches with green foliage

Cultivation: Well drained to dry clay loam sandy or gravelly soils neutral to low acid pH

Fertiliser: Low P required at around 3 %

Climate: Cool temperate sub tropical semi arid; 2nd line coastal

Maintenance: Minimal
