

Dianella Silver Streak™

Dianella revoluta

A clumping perennial with grey-green and white, striped, strappy leaves. Clusters of blue flowers appear on spikes in spring and summer and are held above the leaves. These are followed by shiny, dark blue berries. Excellent specimen for form and colour contrast in mixed beds. Ideal for mass planting and more formal landscape designs. Prefers a sunny position in well drained soil. Tolerant of dry periods and light frost.

Quick Info:

Genus/Species:
Dianella revoluta

Cultivar Name: Silver Streak

Habit: Strappy

Plant Type: Strappy

Height (m): 0-100cm

Width (m): 0-100cm

Frost Tolerance: Low

Growth Rate: Medium

Position: Full Sun to Part Shade

Flower Information:
Clusters of blue flowers

Foliage Information: Grey-green and white striped strappy leaves.

Cultivation: Well drained to dry clay loam sandy or gravelly soils neutral to low acid pH

Fertiliser: Low P required at around 3 %

Climate: Cool temperate sub tropical semi arid; 2nd line coastal

Maintenance: Minimal
