

Grevillea Bon Accord™

Grevillea johnsonii x wilsonii

A happy accident in the gardens of Austraflora resulted in an outstanding cross-continent selection. From eastern Australia comes *G. johnsonii*, and from the west *G. wilsonii* ~ together they produced Bon Accord™ (meaning agreement) and nothing could be more agreeable than this beauty. A spectacular focus in any landscape, with a size of up to two metres height & width, it offers the best of both parents: clusters of glossy pink red flowers are well displayed from spring to summer, covering the intricate foliage and enticing honeyeaters from dawn till dusk. Plenty of sunshine and good drainage, and a light prune after flowering will keep Bon Accord™ in a happy frame of mind.

Quick Info:

Genus/Species:

Grevillea johnsonii x wilsonii

Cultivar Name: Bon Accord

Habit: Erect to arching medium shrub

Plant Type: Medium Shrub

Height (m): 100-150cm

Width (m): none

Frost Tolerance: Medium

Growth Rate: Medium
