

Grevillea Tucker Time Fruit Box™

Grevillea lanigera x rosmarinifolia

Tucker Time® Fruit Box™ is built for honey-eating birds, and when you see the Tucker Time® banner you know that nectars on tap for much of the year. In this case from autumn to spring, just great for the colder months. Dense and compact with soft foliage highlighted by bunches of waxy pink & cream flowers, Tucker Time® Fruit Box™ is very useful in narrow formal areas. It can either be lightly trimmed or hedged to around 50 -70 cm and looks great in a decorative container. Its very happy in in a range of climates from cold temperate to sub tropical and semi arid in well drained but moist clay or sandy loams, neutral to light acid pH. Also handles medium frost and second-line coastal regions. Dont forget to provide a cat-free source of water near to plants such as Tucker Time® Fruit Box™ and other such free flowering Grevilleas.

Quick Info:

Genus/Species:

Grevillea lanigera x rosmarinifolia

Cultivar Name: Tucker Time Fruit Box

Habit: Compact soft foliaged small shrub

Plant Type: Small Shrub

Height (m): 50-100cm

Width (m): none

Frost Tolerance: High

Growth Rate: Medium

Position: Full Sun to Part Shade

Flower Information:

Bunches of waxy pink & cream flowers late autumn winter spring

Foliage Information: Small soft grey green dense

Cultivation: Well drained clay or sandy loam neutral to low acid pH

Fertiliser: Low P required at around 1.6 %

Climate: Cool temperate to sub tropical semi arid; 2nd line coastal

Maintenance: Minimum prune to shape if required
